PELLETIZED  
HIGH ORGANIC 6-12-6 FERTILIZER

No Muss — No Fuss — No Waste

Its New — Free Flowing — Long Lasting. Less danger of burning because the pellets fall to the ground between the blades of grass.

Economical — Use only 2 to 3 pounds to 100 square feet — Ask for descriptive literature.

AGRICULTURAL LIME  
(Carbonate)  
FOR LAWN AND GARDEN

Will not irritate the skin — can be applied with the hands without danger of burning in case of open sores or cuts.  
Is effective immediately — lasts longer than hydrated lime — remains effective over a longer period of time.  
Can be applied at any time and will not injure seed nor young plants.

## CRAB GRASS KILLER

## CRAB-NOT

"Selective"

CRABGRASS AND CHICKWEED  
KILLER

CRAB-NOT containing "POTASSIUM CYANATE," a new NON-POISONOUS Weed Killer which readily controls crabgrass and chickweed in lawns with little or no damage to desirable turf grasses.

It is very easy and safe to use, just mix with water and spray. CRAB-NOT presents no fire hazard — does not stain clothing or equipment — it is relatively NON-POISONOUS to man and animals and no poisonous residue remains on treated vegetation.

CRAB-NOT comes in "powder" form and is completely soluble in water. It will not sterilize the soil, but is of beneficial value, for it breaks down into FERTILIZING ELEMENTS on contact with the soil.

The Standard Formula is non-volatile and can in no way affect adjacent untreated vegetation.

CRAB-NOT readily combines with "2-4-D" for control of broadleaf weeds and is available in packaged form "with" or "without" 2-4-D.

## CRAB-NOT STANDARD FORMULA
